Your Prescription Drug Program

The UPMC *for You* Prescription Drug Formulary is a list of Food and Drug Administration (FDA) approved medications. This list has been developed by UPMC *for You* doctors and pharmacists. UPMC *for You* provides coverage (pays for) for medications on the formulary (drug list). The drugs on the formulary were selected because they are safe, work well, and cost less than other drugs that have the same level of effectiveness. For your convenience, there is a list of prescription medications and a list of over-the-counter (OTC) medications. These lists are in alphabetical order. The UPMC *for You* formulary includes the most commonly used drugs. It does not include every medication your doctor might prescribe. UPMC *for You* covers many other drugs besides the ones listed in the formulary.

Your doctor should order medications for you from the formulary. If your doctor writes you a prescription for a non-formulary medicine, he or she will need to contact Pharmacy Services at 1-800-979-UPMC (8762) for a medical exception. TTY users should call toll-free at 1-800-361-2629. You will not be able to get the medication until we authorize the exception.

You can get some over-the-counter medications when your doctor writes a prescription for them. Please refer to the UPMC *for You* Over-the-Counter formulary in this book, on pages 24-27, for a listing of covered products.

If you have any questions, call a UPMC *for You* Member Services representative at 1-800-286-4242 Monday, Tuesday, Thursday, or Friday from 7 a.m. to 7 p.m., Wednesday from 7 a.m. to 8 p.m., and Saturday from 8 a.m. to 3 pm. TTY users should call toll-free at 1-800-361-2629.

Pharmacy Copayments and Six-Prescription Limit

A six-prescription limit applies only to members in the General Assistance benefit category. The limit will not apply if the General Assistance member meets any of the criteria listed below.

Also, you may need to pay a small amount to the pharmacist for your medications. This is called a copayment. The pharmacist will let you know if a copayment applies to you.

Pharmacy copayments and the six-prescription limit do not apply to pregnant women (including through the post-partum period), recipients under the age of 18, nursing facility residents, and those who reside in an Intermediate Care Facility for the Mentally Retarded and Other Related Conditions (ICF/MR/ORC). Pharmacy copayments also do not apply to emergency supplies, family planning supplies, and recipients eligible under the Breast and Cervical Cancer Prevention and Treatment coverage group and Titles IV-B Foster Care and IV-E Foster Care and Adoption Assistance.

Information for members in the General Assistance Benefit category:

Prescription drugs, including over-the-counter and insulin, prescribed or ordered by your doctor (including originals and refills of existing prescriptions) will be covered up to a maximum of 6 prescriptions per calendar month.

- Exceptions to the numerical limits on prescriptions may be granted if you have a serious chronic systemic illness or other serious health conditions.
- Certain medications are exempt from the limit. Your pharmacist will let you know if your medications are exempt.

If you have pharmacy benefits, brand-name prescription drugs and brand-name over-the-counter drugs are \$3 for each new prescription or refill.

If you have pharmacy benefits, generic prescription drugs and generic over-the-counter drugs are \$1 for each new prescription or refill.

If your copayments between January and June or between July and December are more than \$180, UPMC *for You* will automatically refund the amount that is over \$180. Rebate checks will be mailed within 4 to 6 weeks after each 6-month period.

You cannot be denied a prescription drug if you cannot pay the copayment. Tell your pharmacist if you cannot afford to pay. Your pharmacy can still try to collect the copayment.

Information for members in the Adult Benefit category:

- If you have pharmacy benefits, brand-name prescription drugs and brand-name over-the-counter drugs are \$3 for each new prescription or refill.
- If you have pharmacy benefits, generic prescription drugs and generic over-the-counter drugs are \$1 for each new prescription or refill.

You do not have to pay a copayment for certain drugs: anti-hypertensives (high blood pressure drugs), anti-neoplastics (cancer drugs), anti-diabetics (diabetes drugs), anti-convulsants (epilepsy drugs), cardiovascular preparations (heart disease drugs), anti-Parkinson's agents (Parkinson's disease drugs), AIDS drugs, anti-glaucoma agents (glaucoma drugs), anti-psychotics (drugs for psychosis), and anti-depressants (drugs for depression).

You do not have to pay a copayment for drugs, including immunizations, dispensed by a physician.

If your copayments between January and June or between July and December are more than \$90, UPMC *for You* will automatically refund the amount that is over \$90. Rebate checks will be mailed within 4 to 6 weeks after each 6-month period.

You cannot be denied a prescription drug if you cannot pay the copayment. Tell your pharmacist if you cannot afford to pay. Your pharmacy can still try to collect the copayment from you.

If you have questions about these copayments or which benefit you are eligible for, please call a UPMC *for You* Member Services representative at 1-800-286-4242 Monday, Tuesday, Thursday, or Friday from 7 a.m. to 7 p.m., Wednesday from 7 a.m. to 8 p.m., and Saturday from 8 a.m. to 3 pm. TTY users should call toll-free at 1-800-361-2629.

Plan Exclusions

The following medications are not covered under the Medical Assistance Program:

- DESI drugs
- Drugs from manufacturers not participating in the Fee-for-Service (FFS) Medical Assistance Drug Rebate Program
- Erectile dysfunction medications
- Experimental/investigational medications
- Drugs used for cosmetic purposes
- Drugs used for fertility purposes
- Weight-loss drugs

Dispensing Limitations

Prescriptions must be dispensed by a network pharmacy. Some network pharmacies can provide up to a 90-day supply of maintenance drug for

one copayment. Please ask your pharmacist or call our Member Services representatives to see if your pharmacy participates in this program. A maintenance drug is one that you take on a regular basis for a chronic or long-term condition. Antibiotics, controlled substances, and specialty medications are limited to a maximum 30-day supply per copayment. Controlled substances are drugs with high abuse potential and have a schedule II-V classification according to the Drug Enforcement Agency (DEA) and Food and Drug Administration (FDA). Specialty drugs are high-cost medications used to treat complex diseases. These medications usually require specialized handling and close monitoring by a doctor. Please ask your pharmacist or call our Member Services representatives to determine which drugs can be filled for a 90 day supply.

A medication may be refilled when 85% of the medication has been used. Authorizations for medications that are lost/misplaced, stolen, or destroyed/damaged must be reviewed by the UPMC *for You* Pharmacy Services department.

Temporary Supplies

UPMC *for You* will respond to all requests for exceptions within 24 hours. If a decision cannot be made in 24 hours, you will receive one of the following:

- A 15-day supply of medication if your prescription qualifies as an ongoing medication.
- A 72-hour supply of medication if you have an immediate need for it.

Generic Medications

UPMC *for You* requires that generic medications be given to you when available. Generic drugs have the same active ingredients as their brand-name counterparts and are just as safe and effective. Doctors are encouraged to prescribe generic medications whenever clinically appropriate. If your doctor prescribes a drug by brand name, your pharmacist will give you a generic version of that drug. If your doctor thinks you need the brand-name version of the drug, your doctor will need to call Pharmacy Services at 1-800-979-UPMC (8762). TTY users should call toll-free at 1-800-361-2629. Representatives are available Monday through Friday from 8 a.m. to 5 p.m.

Step Therapy

Some medications listed on the UPMC *for You* formulary require specific medications to be used before you can receive the step therapy medication. The step therapy medications are automatically covered if we have a record that the required medication has been tried first. If there is no record that the required medication has been tried, your doctor is required to consult with UPMC *for You* Pharmacy Services before your pharmacy plan will cover the step therapy medication. The drugs are as follows:

Step Therapy Medications

Actos

Avandia

Celebrex

Diovan

Diovan HCT

Exforge

Exforge HCT

Januvia

Lexapro

Maxalt

Onglyza

Singulair

Symlin

Venlafaxine ER capsule

Abilify (<12 years of age)

Chlorpromazine (<12 years of age)

Clozapine (<12 years of age)

Fazaclo ODT (<12 years of age)

Fluphenazine (<12 years of age)

Geodon (<12 years of age)

Haloperidol (<12 years of age)

Loxapine (<12 years of age)

Moban (<12 years of age)

Orap (<12 years of age)

Perphenazine (<12 years of age)

Risperidone (<12 years of age)

Seroquel (<12 years of age)

Thioridazine (<12 years of age)

Thiothixene (<12 years of age)

Trifluoperazine (<12 years of age)

Zyprexa (<12 years of age)

Prior Authorization

Some medications listed on the UPMC *for You* formulary require additional information from your doctor. Your doctor is required to consult with UPMC *for You* Pharmacy Services the first time he or she prescribes these drugs for you and before your pharmacy plan will cover them. The drugs are as follows:

Prior Authorization Medications

Abilify (2 mg, 5 mg)	Galantamine/ Galantamine ER	Nuedexta	Sutent
Abstral		Nulojix	Sylatron
Actemra	Geodon (20mg)	Nuvigil	Symbyax
Acthar Gel	Gilenya	Oforta	Synagis
Adagen	Glassia	Onsolis	Synarel
Adcirca	Gleevec	Orencia	Synvisc
Afinitor	Humatrope	Orfadin	Tarceva
Aldurazyme	Humira	Pegasy	Targretin
Amevive	Hycamtin	Peg-Intron	Tasigna
Ampyra	Incivek	Procrit	Temodar
Androderm	Increlex	Prolastin	Tev-Tropin
Aralast	Infergen	Prolastin-C	Thalomid
Aranesp	Intron-A	Prolia	Tracleer
Banzel	Iressa	Promacta	Trelstar
Benlysta	Itraconazole	Protopic	Tretinoin (age 35 and older)
Berinert	IVIG (intravenous immune globulin)	Provenge	Tykerb
Botox	Kalbitor	Provigil	Tysabri
Buphenyl	Kineret	Pulmozyme	Tyvaso
Buprenorphine	Krystexxa	Rapamune	Vantas
Caprelsa	Kuvan	Reclast	Veletri
Carbaglu	Letairis	Relistor	Ventavis
Cerezyme	Lidoderm	Remicade	Viadur
Cinryze	Lucentis	Remodulin	Victrelis
Daliresp	Lumizyme	Revatio	Votrient
Donepezil	Lupron	Revlimid	VPRIV
Dysport	Lupron Depot	Risperdal Consta	Xeloda
Egrifta	Lupron Depot-Ped	Rituxan	Xenazine
Elaprase	Lyrica	Rivastigmine	Xeomin
Elidel	Lysteda	Samsca	Xgeva
Eligard	Makena	Sandostain LAR Depot	Xifaxan
Enbrel	Mozobil	Savella	Xolair
Epogen	Myobloc	Seroquel	Xyrem
Euflexxa	Myozyme	Serostim	Zavesca
Fabrazyme	Naglazyme	Somatuline Depot	Zemaira
Fanapt	Namenda	Somavert	Zoladex
Fentanyl citrate lozenge	Neulasta	Sprycel	Zolinza
Fentora	Neupogen	Stelara	Zorbtive
Firmagon	Nexavar	Suboxone	Zortress
Flolan/epoprostenol	Nplate	Sucraid	Zyprexa (2.5 mg, 5 mg)
Forteo		Supprelin LA	Zytiga

Quantity Limits

The UPMC *for You* Pharmacy and Therapeutics Committee has established quantity limits on certain drugs to encourage the appropriate use of these drugs. The drugs in the following table have quantity limits.

Medication Class	Quantity Limits
Anticoagulant (blood thinner) Medications	
Effient	30 tablets per month
Enoxaparin, Fragmin, and Fondaparinux	2 month supply per year
Antiviral Medications	
famciclovir	125 mg: 21 tablets per month 250 mg: 70 tablets per month 500 mg: 21 tablets per month
Relenza	1 kit per season
Synagis PA	1 vial per month Maximum of 5 doses per season
Tamiflu	10 capsules or 2 bottles per season
valacyclovir	1000 mg: 21 tablets per month 500 mg: 42 tablets per month
Asthma	
Singular ST	30 tablets per month
ADHD and Stimulant Medications	
amphetamine salt combo	5 mg, 7.5 mg, 10 mg, 12.5 mg, 20 mg: 3 tablets per day 15 mg, 30 mg: 2 tablets per day
amphetamine salts ER	5 mg, 10 mg, 15 mg: 30 capsules per month 20 mg, 25 mg, 30 mg: 60 capsules per month
dexmethylphenidate	2 tablets per day
dextroamphetamine	4 tablets per day
dextroamphetamine SA	5 mg : 1 tablet per day 10 mg, 15 mg: 4 tablets per day
methylphenidate	2.5 mg, 5 mg, 10 mg, 20 mg: 3 tablets per day 5 mg/5 mL solution: 30 mL per day 10 mg/5 mL solution: 15 mL per day
methylphenidate ER	18 mg, 27 mg, 54 mg: 30 tablets per month 36 mg: 60 tablets per month
methylphenidate SR	3 capsules per day
Nuvigil PA	30 tablets per 30 days
Provigil PA	100 mg: 30 tablets per 30 days 200 mg: 60 tablets per 30 days
Strattera	10 mg, 40 mg, 60 mg, 80 mg, 100 mg: 30 tablets per month 18 mg: 60 tablets per month 25 mg: 90 tablets per month

Continued

PA = Prior Authorization Required

ST = Step Therapy Required

These are the standard quantity limits we cover. Depending upon diagnosis and information provided by the doctor, higher quantities may be covered after medical review on a case-by-case basis.

Medication Class	Quantity Limits
Bronchodilators	
Proair HFA	2 inhalers per month
Ventolin HFA	2 inhalers per month
Contraceptive Agents	
Medroxyprogesterone injection	1 vial/syringe per 90 days
Nuvaring	1 ring per 28 days
Oral contraceptive tablets	28 tablets per 28 days 91 tablets per 90 days for extended cycle tablets
Dermatological Agents	
Regranex	3 tubes per year

nicotine patches	12 weeks
Nicotrol inhaler	24 weeks
Nicotrol nasal spray	12 weeks
Smoking cessation products will be limited to 2 quit attempts per 365 day period	

Once-Daily Medications

The FDA has approved some drugs to be taken once daily in a larger dose instead of several times a day in smaller doses. This is easier since you only need to remember to take your medication once a day instead of several times a day. For these drugs, UPMC *for You* covers only one larger dose per day for up to 30 days at a time.

Here is an example. Your doctor writes a prescription for you to take two 20 milligram (mg) doses of medicine each day, in the morning and evening. If the 40 mg strength of medication exists, your pharmacist will substitute one 40 mg dose per day instead of the two 20 mg doses per day. If a medical reason prevents you from taking your medication once daily in the larger dose, your doctor may call Pharmacy Services at 1-800-979-UPMC (8762) to request a medical exception. TTY users should call toll-free at 1-800-361-2629. Representatives are available Monday through Friday from 8 a.m. to 5 p.m.

Pharmacies for Prescriptions

UPMC *for You* has many participating pharmacies that can fill your prescription. You have pharmacy benefits coverage if the Department of Public Welfare has determined that you are eligible for this coverage. You can call a UPMC *for You* Member Services representative at 1-800-286-4242 and select the number for “pharmacy” to find a participating pharmacy close to you. Member Services representatives are available to you Monday, Tuesday, Thursday, Friday from 7 a.m. to 7 p.m., Wednesday from 7 a.m. to 8 p.m. and Saturday from 8 a.m. to 3 pm. TTY users should call toll-free at 1-800-361-2629. You can also go online at www.upmchealthplan.com to look up a pharmacy address closest to you.

Complaints, Grievances, and Fair Hearings

You have the right to appeal any denial made by UPMC *for You* and the right to file a complaint about the administration of the drug formulary, by using the complaints and grievances process described in the UPMC *for You* "Member Handbook." To request this handbook, or for information on the Complaint and Grievance Process, call a UPMC *for You* Member Services representative at 1-800-286-4242. TTY users should call toll-free at 1-800-361-2629. You can also go online at www.upmchealthplan.com to see an online copy of this handbook.

Pharmacy Benefit Questions

If you have a question about your pharmacy benefit, please call our UPMC *for You* Member Services representatives at 1-800-286-4242 Monday, Tuesday, Thursday, Friday from 7 a.m. to 7 p.m., Wednesday from 7 a.m. to 8 p.m. and Saturday from 8 a.m. to 3 pm. TTY users should call toll-free at 1-800-361-2629.

UPMC for You Over-the-Counter Formulary

The following is a listing of some of the most commonly used over-the-counter (OTC) medications that are available in all forms (e.g., tablets, liquids, ointments, creams, lotions) and strengths (e.g., adult, pediatric). Generic OTC medications are covered by UPMC for You with a prescription from your doctor. If generic is not available, an OTC brand-name drug will be covered by UPMC for You. The brand names listed are for reference only.

Category	Generic	Brand Name Example
Acne	benzoyl peroxide	Panoxyl, Benoxyl
Analgesics	acetaminophen and combinations	Tylenol, Feverall, Little Fevers
	aspirin and combinations	Ecotrin, Bayer
	ibuprofen and combinations	Motrin, Advil
	naproxen	Aleve
Antacids	aluminum hydroxide	Alternagel, Alu-cap, Alu-tab
	aluminum/magnesium	Mylanta, Maalox Advanced, Gaviscon
	calcium carbonate	Tums, Maalox
	calcium carbonate/magnesium hydroxide	Mylanta Supreme, Rolaids
	cimetidine	Tagamet
	famotidine	Pepcid
	ranitidine	Zantac
	nizatidine	Axid
	omeprazole OTC	Prilosec OTC
	lansoprazole	Prevacid 24 hour
Antidiarrheals	bismuth subsalicylate	Kaopectate, Pepto-Bismol
	loperamide	Imodium A-D
Antiflatulents	simethicone	Gas-X, Phazyme, Mylicon
Antihistamines	chlorpheniramine	Chlor-trimeton, Aller-chlor
	diphenhydramine	Benadryl
	loratadine	Claritin, Alavert, Tavist-ND
	cetirizine	Zyrtec
	fexofenadine	Allegra
Decongestants	pseudoephedrine	Sudafed
	phenylephrine	Sudafed-PE
Antihistamine/ Decongestant Combinations	loratadine/pseudoephedrine	Claritin-D, Alavert-D
	cetirizine/pseudoephedrine	Zyrtec-D

UPMC for You Over-the-Counter Formulary (continued)

Category	Generic	Brand Name Example
Antinauseants	bismuth subsalicylate	Kaopectate, Pepto-Bismol
	dimenhydrinate	Dramamine, Draminate
	meclizine	Dramamine Less Drowsy, Bonine
	sugar/orthophosphoric acid	Emetrol
Cough/Cold Preparations	guaifenesin	Mucinex
	guaifenesin/dextromethorphan	Robitussin DM, Mucinex-D
Diabetes	blood glucose monitors	One Touch monitors, Ascensia monitors
	test strips	One Touch Test Strips, Ascensia Test Strips
	lancets	One Touch UltraSoft Lancets, Ascensia Microlet Lancets
	glucose tablets	
	insulin	Humulin R, Humulin N, Humulin 70/30 (vials)
	insulin syringes	BD Syringes
	alcohol swabs	BD Alcohol Swabs
Laxatives/Stool Softeners	magnesium hydroxide	Milk of Magnesia
	bisacodyl	Dulcolax
	docusate and combinations	Colace, DocuSoft, Peri-colace
	laxative enemas	Fleets
	psyllium	Metamucil, Fiberall
	polyethylene glycol	Miralax, Dulcolax Balance
	senna	Senokot, Ex-lax
Nasal Preparations	oxymetazoline	Afrin, Neo-Synephrine 12 hour
	saline	Ocean Nasal Spray, Ayr, Simply Saline
	phenylephrine	Neo-Synephrine, Vick's Sinex
Obstetrics/ Gynecology	clotrimazole	Gyne-Lotrimin-3, Gyne Lotrimin-7
	miconazole	Monistat
