UPMC *for Kids* Provider Directory

Welcome

In this book you will find listings of the health care practitioners, facilities, and services in our UPMC *for Kids*™ provider network. The listings are designed to make it easy for you to find doctors, health care facilities, and services near your home.

Service Area

If you are looking for the name of a hospital, service, or facility, simply go to the “Participating Hospitals” or “Services and Facilities” sections in this book. All of the other listings in this directory are divided by county and are in alphabetical order. Go to the table of contents to locate the type of listing you want to find in the county where you live.

Age groups — Some providers care for children in certain age groups. This information is provided in this directory. You should select a provider who cares for children who are in the same age group as your child.

County listings — All other listings for providers and pharmacies are divided by county. They are in alphabetical order.

- **Allegheny County** — Because there are many providers and pharmacies in Allegheny County, these listings are split into five areas: Central, North, South, East, and West. The following pages labeled “Allegheny County Service Areas” show these areas. To see how these five areas are divided by ZIP code, use the listing on the page next to the map.
- **Other counties** — All other listings for providers and pharmacies are divided by county. They are in alphabetical order.

Website

This directory provides a list of UPMC Health Plan providers. If you wish to view a complete listing of providers, visit our website at www.upmchealthplan.com or call UPMC *for Kids* at the number listed below.

This directory is for members who live in the UPMC Health Plan service area. Please see the table of contents to review the counties in our service area.

This directory is current as of March 2016. Some plan providers may have been added or removed from the list since this directory was printed. To get the most up-to-date information about UPMC Health Plan providers in your area, you can visit www.upmchealthplan.com/upmcforkids or call our Health Care Concierge team at 1-800-650-8762 Monday through Friday from 7 a.m. to 7 p.m. and Saturday from 8 a.m. to 3 p.m. TTY users should call 1-800-361-2629.

Because of the large number of network providers located in Allegheny County, we have divided the provider listings for this county into five geographic sections: Central, North, South, East, and West.

To find a provider near you in Allegheny County:

1. Find your ZIP code on one of the lists above. Note the geographic section into which your ZIP code falls: Allegheny Central, North, South, East, or West.
2. Turn to the part of the book that corresponds to that geographic section.
3. Each geographic section is broken down by type of doctor: PCPs, pediatricians, ob-gyns, and specialists. Turn to the section that includes the type of doctor for which you are searching.

Introduction

The UPMC *for Kids* Provider Directory is a good resource for finding doctors, hospitals, and other providers in the UPMC *for Kids* network. The following pages give you information that will help you use the listings. You will find the following information in this book:

Doctors. Listings of primary care physicians (PCPs), pediatricians, obstetricians and gynecologists (ob-gyns), and various types of specialists. There are also listings of eye doctors.

Facilities. Listings of hospitals, non-hospital facilities, behavioral health facilities, and pharmacy locations.

Alphabetical Index. The index in the back of the book lists all network providers. If you know the name of your child's provider, you can use the index. The index will tell you which page includes the listing you are looking for.

Choosing a Provider

When your child joined UPMC *for Kids*, you chose a primary care practitioner (PCP) for him or her. Your child's PCP will help manage and arrange health care services.

When your child needs a medical service, call his or her PCP. The PCP's telephone number is on the front of the UPMC *for Kids* member ID card. Your child's PCP will recommend the use of a specialist if necessary.

When choosing a provider, it is important that you have helpful information. This book gives you some basic information about each listed provider. Our Health Care Concierge team can direct you to more information about many PCPs and specialists. This information includes where the doctor went to medical school, where he or she completed his or her residency, or other professional qualifications. To speak with a Health Care Concierge team, call 1-800-650-8762 toll-free Monday through Friday from 7 a.m. to 7 p.m. and Saturday from 8 a.m. to 3 p.m. TTY users should call 1-800-361-2629.

Listing Codes. PCPs and specialists may have one or more of the following codes in their listing. The codes mean the following:

- **SP** means specialty. Specialty means that the provider may treat patients with a particular type of disease, illness, or condition.
- **BC** means board certified. To get board certification, a provider must pass a test on that specialty.
- **HA** means hospital affiliation. These are hospitals where the provider can send and treat his or her patients if they need to be in a hospital.

Office Location. The provider's address and telephone number are also included in the listing. If the provider has more than one office, each office is listed by ZIP code.

Language. All providers speak English. Listings in this book include information on any other languages spoken by the provider. The listing may also tell you if the provider is able to communicate through sign language.

Gender. The listings in this book will show whether a doctor is male or female.

Availability. Almost all providers listed in this book accept new patients. When you see the words "existing patients only," that means the provider is not accepting new patients.

Wheelchair Accessibility. Some locations are wheelchair-accessible. At other locations, special arrangements can be made for access. Providers who have wheelchair accessibility have a wheelchair symbol next to their names in this directory. If you have any questions about wheelchair accessibility, or have special needs, call our Health Care Concierge team toll-free at 1-800-650-8762 Monday through Friday from 7 a.m. to 7 p.m. and Saturday from 8 a.m. to 3 p.m. TTY users should call 1-800-361-2629.

Changing Your Child's PCP. UPMC *for Kids* members can change their PCP for any reason, any time. Just call UPMC *for Kids* toll-free at 1-800-650-8762 Monday through Friday from 7 a.m. to 7 p.m. and Saturday from 8 a.m. to 3 p.m. TTY users should call 1-800-361-2629. Our Health Care Concierge team can help you pick a new PCP who will meet your child's needs. We will send you a new UPMC *for Kids* member ID card with the name and phone number of your child's new PCP.

Provider Definitions

Throughout this book you will see references to medical terms. The list below will help you understand some of these terms.

Certified Nurse Midwife (CNM). A registered, professional nurse licensed to practice as a midwife. A midwife cares for pregnant members and newborns while a woman is pregnant and after the delivery of the baby.

Certified Registered Nurse Practitioner (CRNP). A registered nurse with more training in a specialty area. A CRNP is certified by a board for that specialty area. A CRNP may diagnose a condition or prescribe medicine under the direction of a doctor.

Family Practice Doctor. A doctor who treats all family members. These doctors see patients of all ages.

Internal Medicine Doctor. A doctor who treats adult and older teen illnesses. Most internal medicine doctors see patients who are age 16 and older.

Obstetrician. A doctor who takes care of pregnant members and delivers babies.

Ob-Gyn (Obstetrician-Gynecologist). A doctor who cares for pregnant members, delivers babies, and provides health services for women. Services can include Pap smears, annual checkups, and family planning services.

Ophthalmologist. A doctor who treats eye problems. An ophthalmologist may perform surgery and write prescriptions. Also, an ophthalmologist may perform eye exams and fit patients for eyeglasses and contacts.

Optometrist. A health care provider who performs eye examinations and fits patients for eyeglasses or contact lenses.

Pediatrician. A doctor who treats children.

Physician Assistant (PA). A health professional who is trained to practice medicine with physician supervision. A PA may perform physical exams, order and read lab tests, diagnose and treat illnesses, prescribe medicine, and counsel patients.

Primary Care Practitioner (PCP). PCPs provide or arrange for all health care needs. Different types of PCPs include family and general practice doctors, pediatricians, internal medicine doctors, and CRNPs.

Specialist. A doctor or other health professional whose training and expertise are in a specific area of medicine, like cardiology or dermatology.

Definitions for Terms Used in Directory Listings

Throughout this book, you will see terms used within each listing. The list below will help you understand some of these terms.

Accepting New Patients. This term is used when a provider or practice is willing and able to accept new patients.

Accreditation. Accreditation helps people to know whether a certain facility was reviewed and met high standards. The standards are set by several groups that closely review the facilities. Two common hospital accreditation boards include the Joint Commission on Accreditation of Healthcare Organizations (JCAHO) and the American Osteopathic Association (AOA).

Board Certification. Board certification shows that a doctor has earned a certificate from a certain medical group. The doctor has to meet certain requirements of the board to get a certificate. The groups require high standards and performance. Doctors must also pass tests before being certified. Certification tells you that the doctor went through extra studies and testing. UPMC Health Plan recognizes board certification by either the American Board of Medical Specialties (ABMS) or the American Osteopathic Association (AOA).

Languages Spoken. The listings show which languages a provider can speak, other than English.

How to Check Certification. Doctors who have certification have taken an extra career step. They have volunteered to have their qualifications judged by a group of other physicians. You can check on a doctor's certification with certain groups that review medical providers. Check the links below if you have a computer and Internet service.

The following link is for the American Board of Medical Specialties.
<http://www.abms.org/>

The following link is for DO-Online. This website was created by the American Osteopathic Information Association and the American Osteopathic Association (AOA). It shows which doctors are certified by AOA.

<http://www.osteopathic.org>

Getting Care from Specialists

A referral from a PCP is not needed to see a participating specialist. However, you should let the PCP know that you are going to the specialist so the PCP can coordinate the care your child may need.

Behavioral Health Services. If your child needs services for mental health, drug abuse, and alcohol abuse, you may choose a participating behavioral health provider. “Participating” means the provider has been accepted into the provider network established for UPMC *for Kids* members.

If you have any questions about these services or need help in choosing a provider, refer to the UPMC *for Kids* Member Handbook. You can also call our Health Care Concierge team toll-free at 1-800-650-8762 Monday through Friday from 7 a.m. to 7 p.m. and Saturday from 8 a.m. to 3 p.m. TTY users should call 1-800-361-2629.

What if you need medical care when your PCP’s office is closed?

PCPs, obstetrician-gynecologists, and behavioral health providers are required to provide coverage 24 hours a day. If a provider has someone else cover for him or her, that provider must also be participating in the provider network affiliated with UPMC *for Kids*.

Emergency Care

If your child has an emergency, go to the nearest emergency room, call 911, or call your local ambulance. After a visit to the emergency room, you should call your child’s PCP within 24 to 48 hours for any follow-up care needed after a visit to the emergency room.

Need Help?

If you need help using this book, call our Health Care Concierge team toll-free at 1-800-650-8762 Monday through Friday from 7 a.m. to 7 p.m. and Saturday from 8 a.m. to 3 p.m. TTY users should call 1-800-361-2629.

The information reported in this book is based on the information given to UPMC *for Kids* from the participating provider and/or verified by licensing and accrediting entities. This information is subject to change without notice. UPMC *for Kids* updates this information on an annual basis in an effort to provide its members and providers with useful information to make decisions about health care providers. Limitations may include, but are not limited to, that some information is self-reported by the provider and is not verified by UPMC *for Kids* (such as name, group affiliation, race) or some of the information that was correct when it was collected may have changed (such as board certification and its expiration date or whether the provider is accepting new patients). UPMC *for Kids* recommends that prior to your child receiving care you confirm the information provided in this book by calling the provider’s office you have selected. UPMC *for Kids* is not responsible, nor liable for any claim or loss resulting from the information used in this book.
