Save Money By Cooking Smarter

You and your family can cook healthy meals, even on a tight budget. Here are some tips that can help.

Before You Shop – Plan Ahead

Step 1: Think about what foods you already have in the house.

Step 2: Make a list of meals that you can make with those items (**Need ideas?** Check out the tools below).

Step 3: Make a list of other foods you still need to buy (See the **We Can!** Grocery List Template on the back of this page for healthy substitutions to make when shopping).

Step 4: Make your cooking plan for the week (Try using the **We Can!** Weekly Meal Planner).

When You're Cooking – Make the Most of Your Time and Ingredients

Cook once, eat twice!

- Skip seconds. Save leftovers for another meal.
- Freeze the leftovers to eat later or take them for lunch the next day.
- Keeping your portions at the right size can save calories *and* money.

Do "batch cooking"

- When you can, cook large amounts of foods that freeze well, like spaghetti sauce.
- Split meals into family-size portions and freeze right away after cooking. Use them later in the month.
